 Cairo, Egypt

ABOUT ME

A dedicated Frontend Developer with 3 years of experience crafting responsive web applications . My true passion thrives in crafting captivating , user - centric interfaces . My expertise is finely tuned with the React framework , complemented by adept skills in HTML , CSS , and JavaScript , alongside proficiency in diverse front - end tools . I excel in architecting clean , scalable code optimized for peak performance . Complex challenges are my playground , and I revel in delivering elegant solutions . Eager to embrace new technologies and connect with tech enthusiasts for collaborative ventures .

EXPERIENCE

- Deployed SEO-friendly practices to improve website visibility and search engine rankings.
- Conducted thorough testing and debugging of web applications to drive high-quality and error-free deliverables.
- Integrated APIs with Auth to enhance functionality and data integration within web applications.
- Improved coding of JavaScript and CSS to enhance user experience and functionality.
